A wide-angle photograph of the University of Lethbridge campus at sunset. The main building, a modern structure with large glass windows, is the central focus, situated on a grassy hill. The sky is a mix of orange, yellow, and light blue, with a few clouds. In the background, other campus buildings and a parking lot are visible. Two large white arrows are overlaid on the image: one points from the top right towards the word 'SHINE', and the other points from the bottom right towards the word 'SHINE'.

IT'S YOUR TIME TO SHINE

The University of Lethbridge is a community of inspiring lights united by one common purpose — you — your future and your potential to make a meaningful difference in the world.

Surrounded by breathtaking natural beauty, the uLethbridge is consistently one of Canada's top-ranked universities and leading research institutions. With more than 8,900 students from nearly 100 countries, we are large enough to deliver world-class teaching and research, yet small enough to provide a personalized student experience.

Our University's Blackfoot name is Iniskim, meaning Sacred Buffalo Stone. We are located on traditional Blackfoot Confederacy territory. We honour the Blackfoot people and their traditional ways of knowing in caring for this land, as well as all Aboriginal peoples

who have helped shape and continue to strengthen our University community.

We can't wait for you to join us.

IN A TIME WHEN THE FUTURE IS UNCERTAIN, YOURS DOESN'T HAVE TO BE.

At the uLethbridge, you will prepare to excel in a time of global disruption. You'll learn to think about issues from all angles as you navigate challenges, appreciate differences, work in new ways and collaborate for the greater good. Your professors are renowned researchers who invite you, even as early as your first year, to take part in their work. You'll have many opportunities to discover the world and explore work experiences before you graduate, while receiving the support you need to succeed throughout your educational journey and prepare for the careers of tomorrow.

Your future is bright
at uLethbridge.

Learn to think

At uLethbridge, you gain an in-depth education in your chosen field, a broader awareness of the world and the skills to apply that knowledge and become a civically engaged citizen of the world.

Create, Inquire, Discover

As you participate in research, your creativity grows and your confidence to handle future academic challenges skyrockets. You gain critical thinking and communication skills that will help you in advanced studies or the workplace.

Clear your head; fill your mind

From our extraordinary campus and facilities, to student supports, academic programs, small classes and beyond, students are central to all we do at uLethbridge.

Take your education outside the classroom

Apply your learning by participating in applied studies, cooperative education, preceptorships, independent studies, practicums and international experiences. Then, show future employers what sets you apart with uLethbridge's unique MyExperience Transcript (learn more on pages 13-14).

In the pages that follow, meet uLethbridge students who are forging their own path forward.

Zaynab Enayetullah knew choosing public health was the right decision as she watched the rise of the COVID-19 pandemic during her second semester at uLethbridge.

Why did you choose to study public health?

When I was in grade 11, I did a project comparing healthcare in Canada to healthcare in a developing nation. Before that class, I had always seen healthcare only as treatment, but there is so much more involved in keeping a population healthy or preventing the disease from starting in the first place. I really enjoyed studying preventative medicine, so I looked for programs and uLethbridge has one of the only undergraduate programs in Canada in public health.

How did you know you were studying the right program?

I took epidemiology during the spring 2020 term and it was one of my favorite classes! Epidemiology focuses on the distribution and determinants leading to disease. This was right when COVID-19 was gaining momentum and I made so many connections from the classroom to real life. I'd never experienced that before.

How has liberal education played a role in your program?

It helps to have a broad knowledge of different subjects because you end up applying them in many situations. I learned a lot of valuable information in my cultural anthropology course that I ended up applying to my program. Public health is about population health; all groups need to be represented so you can provide everyone with the best kind of health care. Canada is a multicultural country; when you are dealing with people you cannot take the same approach with everyone. You have to deal with people from different cultures with sensitivity.

A portrait of a young woman wearing a dark brown hijab and a plaid shawl. She is smiling slightly and looking towards the camera. The background is a soft, out-of-focus landscape with warm, golden light, suggesting a sunset or sunrise.

“Everything I was learning in class was applicable to the rise of the COVID-19 pandemic; it has truly changed our lives as we know it. It was perfect timing and an amazing experience to be able to share what I was learning with those around me. It was reassuring, for sure.”

**Zaynab
Enayetullah**

Bachelor of Health Sciences Student
Major: Public Health

Lorenzo Bachman-Conrad is building an impressive resume and a strong network by working where he learns. His campus roles so far include lifeguard, teaching assistant, tutor and marketing designer/consultant.

How have your professors affected your education?

All of the incredible faculty in the Dhillon School of Business (DSB) have helped add a critical and creative component to my problem-solving abilities. It's safe to say that all the DSB faculty have made important contributions to how I view the world around me. The Computer Science department showed me an entirely new way of thinking. I look forward to each new computer science class I take, as the possibilities in this field are endless.

What have you enjoyed the most about uLethbridge?

The personal connections you make with professors, staff, fellow students and industry. The University's close relationship with local industry provides incredible opportunities for co-op studies, applied studies, and potential future employment. I toured larger Universities prior to applying to uLeth and found that many of them, due to their size, simply lack this advantage in comparison with uLethbridge's incredible programs.

Have you taken part in any experiential learning opportunities?

I started as a lifeguard for Horns Recreation at the University, and now provide marketing support for the department. It is incredible to work for the same institution where you learn.

I am a teaching assistant in the Dhillon School of Business, and love having the opportunity to help students make connections and apply course concepts in a new and exciting way. I was also working on a textbook with one of my instructors, but it was put on hold because of COVID-19.

**Lorenzo
Bachman-Conrad**
Dhillon School of Business Student
Major: Computer Science
Minor: New Media

“By working on campus, I can apply what I am learning in the classroom to my various roles at the University. It’s like a feedback loop, where I make direct connections from the classroom to my workplace. This adds incredible value to my educational experience. ”

“uLethbridge offers a lot of experiential learning opportunities not always offered at other universities. I truly believe these experiences are essential for personal and professional growth.”

A portrait of a young woman with long, wavy blonde hair, smiling warmly. She has a nose ring and is wearing large, dark green hoop earrings. She is dressed in a grey, textured knit cardigan over a red top. The background is softly blurred, showing a patterned cushion and a window.

**Valentine
Deregnaucourt**

Bachelor of Science Student
Major: Kinesiology

When Valentine Deregnaucourt moved to Canada from France, she looked for a university known for its research programs, innovation, and ability to help students develop skills and work experience.

What are the benefits of studying at uLethbridge over larger institutions?

Since I started at uLethbridge, I've had so many opportunities and experiences. Because it's a small university, I was able to get to know my professors, and staff. In my first two years, I was involved in three different research projects, on the executive of clubs, a teaching assistant, a French tutor, a volunteer for the International Centre and more. To sum up, uLethbridge puts you on the path to success by helping you build relationships, find opportunities and develop new experiences and skills.

Marc Bomhof wasn't one of my professors, but he is already a supervisor, mentor and an amazing support in my academics. I spoke with him about my interest in research and nutrition during my first week at uLethbridge. Our common interest and my motivation led us to apply for a Natural Sciences and Engineering Research Council (NSERC) grant so I could do summer work in his lab. Despite the fact I was only a first-year student without much research experience, he believed in me and reassured me. He was right... I got the award and was able to do government-funded research in my first-year of university!

How have your professors affected your education?

Most of my professors have been inspiring. I see their success and can tell they are passionate about teaching and research. Ilsa Wong gave me the opportunity to be a teaching assistant for her class. Without her encouragement and her confidence in me, I wouldn't have had the courage to apply for the position and be as successful in my work.

Liam Devitt thought their educational path was mapped out until a professor noticed their skill at research. Liam switched to history and has since presented research projects locally at the Galt Museum and Archives, as well as at conferences in Toronto and London, U.K.

How did you get involved in research?

Through Dr. Kristine Alexander, professor and Canada Research Chair in Child and Youth Studies. I was in her Britain in the First World War course. One day after class, she came up to me while I was in line at the Tim Hortons in UHall. She said I did really well on an assignment and that we needed to talk, so I grabbed my coffee and she told me that I seemed good at research and had a great analytical eye. It was really validating because I was at this juncture in my university life where I was unsure what I wanted to do; it was really great to have someone whose work I respect tell me that I am good at research.

What do you like about research?

Research in history is incredibly fun to me. Going through documents that you feel no one has touched in 100 years is really cool; you kind of feel like a detective, putting together pieces of a puzzle. Historical research is so important because we can take these small, sometimes disparate pieces of information and bring them together. That has really big implications for how we see our world, how we see our everyday lives and our place in society.

Tell us about one of your research projects.

I did a lot of assistant curatorial and research work on an exhibition at the Galt Museum & Archives called, *Inqueeries*, which was about 2SLGBTQ+ histories of southwestern Alberta. This was a collaborative exhibition involving researchers from uLethbridge, me and another University student, but what made this exhibition really special was that it involved a group of local queer youth, called Queer Impact Club — a civic engagement group for queer youth, where they can go and find community and build community. The involvement of the Queer Impact Club established a connection between the past and the present and it came through in a really beautiful and amazing way. It was the first exhibit of its kind to talk about queer history in Lethbridge.

A young man with short brown hair and glasses is smiling warmly. He is wearing a long-sleeved button-down shirt with vertical stripes in orange, red, white, and black. He is standing in a field of tall, golden-brown grass. The background is a soft-focus landscape with greenery and a clear sky.

“Research in the humanities is incredibly important because we tend to think of ourselves as individuals and not necessarily as part of a greater collective. It reminds us of our relationship to people that we live in a community with, that we have lived in communion with in the past, and it shows us different ways of existing.”

Liam Devitt

Bachelor of Arts Student
Major: History

EXPERIENCE MATTERS

Get a head-start on a successful future!

Gain first-hand experience, develop new skills and learn to apply your knowledge so you are prepared for the world outside the classroom.

Experience Matters

Graduate with real-life skills and strong personal values for a fulfilling life and career.

A modern workforce requires people with both specific and transferrable skills who can adapt to jobs of the future. Your uLethbridge education is more than what you learn during your program; you need the know how to apply it in a variety of settings. The **myexperience.ulethbridge.ca** catalogue is your partner in preparing for a workforce in flux.

The **MyExperience Transcript**

is a record of your high-impact experiences that you can share with future employers to illustrate what sets you apart from the competition.

The activities may take place on- or off-campus and cover a variety of experiential learning opportunities, emphasizing leadership, research, creativity and innovation, global citizenship, work-integrated learning, community service, and certifications and workshops.

myexperience.lethbridge.ca features:

- A **searchable catalogue of opportunities** for you to explore, with the ability to customize and save search criteria.
- Opportunities and experiences that are connected to **specific learning outcomes or competencies**. Filter the experience catalogue based on competencies and later self-select the skills you have developed through each experience.
- A great **calendar of events and workshops** for professional and personal development.
- A **self-reflection tool** to understand the value of the skills you have gained, and **to build a vocabulary** for sharing your new skills with future employers and others.
- The **MyExperience Transcript**. Share a record of your experiences via a customized link to employers, professional associations, volunteer boards etc.

Some examples of uLethbridge experiential learning opportunities by category:

Leadership

- University of Lethbridge Students' Union executive & council roles, club and organization executive roles, student mentors, tutors, residence assistants, Pronghorns athletes

Research, creative expression, authorship

- Independent study, exhibitions, performances, productions, publication
- authorship/co-authorship, studio coursework, performance groups

Innovation, entrepreneurship

- Agility programming

Global citizenship

- International exchange (outbound), study tours, work-study, Semester-at-Sea, archaeological field school, Malawi field study

Work-integrated learning

- Co-operative education, applied studies, internships, practicum placements

Community service

- Validated volunteer experiences managed through UVolunteer; experience with community organizations such as CKXU, The Meliorist, PRIDE Centre, Women's Centre, LPIRG

Professional development

- Workshops, conferences, Integrated Management Experience, Student-Managed Investment Fund, Mental Health First Aid

The **average salary of uLethbridge co-op students is \$25.77/hour.** ¹ The national average is \$21.03.

95% of uLethbridge co-op students received positive performance evaluations. ¹

¹ Career Bridge WIL Annual Report 2018-19

Agility Maker-Space in Science Commons

Agility is a campus-wide opportunity open to all students. It encourages you to explore new ideas through hands-on experiences. Put your learning into action with Agility-sponsored courses, workshops and events.

You'll have access to resources like collaborative spaces, wall-to-wall white boards, a 3-D printer, reference books and other prototyping tools.

Agility collaborates with uLethbridge professors to bring far-out projects to life, like sending a balloon to the edge of space. Participate in unique learning experiences, from robotics to the future of food, inside and outside the classroom, allowing you to transform your imagination into reality.

OKI! WELCOME TO SACRED BUFFALO STONE

uLethbridge pays respect to the Blackfoot people — past, present and future — while recognizing and honouring their rich cultural heritage, beliefs and relationship to the land. Our Blackfoot name is Iniskim, meaning Sacred Buffalo Stone, and was gifted to the University by Elder Bruce Wolf Child in 2002.

Since we opened our doors in 1967, Indigenous culture has been woven into the fabric of the University, enriching programming, teaching and research, and creating a university where students find community, support and success.

Home to one of the first Indigenous Studies departments in Canada, uLethbridge is committed to including First Nations, Métis and Inuit peoples in our plans and actions. We are revitalizing our curriculum and

are pleased to offer Indigenous-focused majors in every area of study.

The First Nations, Métis and Inuit Students' Association is one of the longest-serving student clubs at uLethbridge. It is made up of primarily Indigenous students, with a small group of non-Indigenous members, as well.

Students interact with members from across Canada, including chiefs, business people, elders and more. We also have the Tatsikiistamik Student Lounge where Indigenous students can gather and socialize, meet other students or study.

We offer a variety of services for Indigenous students including more than 20 Smudge Rooms on campus, elders, enrolment advising, Indigenous mentors, and the Ikaisskini Indigenous Gathering Place.

“My liberal education background serves me well now because it’s made me adaptable. In my time at uLethbridge, I learned how to teach myself new things and how to think on my feet. As a lawyer, there are many times where I have to quickly get familiar with an entirely new subject area in order to address problems for my clients. Because of my liberal education background, I’m able to do this effectively.”

Julian Spear Chief-Morris (BA '13)

Harvard Law School (JD '18)
Associate Attorney at Jenner & Block (Washington, DC)
Former uLethbridge Pronghorns Men's
Basketball Player

LIBERAL EDUCATION

is vital to Canada's future, and yours.

If there has ever been a time when society needed liberal education graduates —it is now.

As we navigate a rapidly changing world and labour market, liberal education provides you with the skills to think critically and creatively, communicate clearly, work collaboratively, solve complex problems, and contribute fully to society as an engaged and informed global citizen and leader.

Liberal education is an approach to learning that empowers and prepares you to deal with complexity, diversity and change, explains the American

Association of American Colleges and Universities. "It provides students with broad knowledge of the wider world (e.g. science, culture and society) as well as in-depth study in a specific area of interest. A liberal education helps students develop a sense of social responsibility, as well as strong and transferable intellectual and practical skills such as communication, analytical and problem-solving skills and a demonstrated ability to apply knowledge and skills in real-world settings."

We asked uLethbridge alumni ...

How can a liberal education help you?

"A liberal education has been invaluable to me because I was able to gain confidence in multiple areas which allowed me to craft my skillset. I was able to dip my toes in courses such as psychology and sociology where I learned about human behaviour, which in turn, has helped me deal with people on multiple levels including being on set, negotiating with people, raising money and developing new projects. Upon graduating, I felt well prepared to enter on my journey as a filmmaker."

Gianna Isabella
(BFA - New Media '10)

Filmmaker, writer, visual artist
Recent Winner: CMPA (Canadian Media Producer's Association) Emerging Producer and Project include films such as Oscar award-winning *Interstellar*, *The Revenant*, Disney's *A Wrinkle in Time* and *The Curse of Audrey Earnshaw*

"Innovation relies on partnerships and a mutual understanding between scientists, ethicists, industry, government and input from your community — there's so much that needs to come together to make these solutions precipitate into something that makes a tangible change in the world. As a scientist, the liberal education philosophy enhanced my degrees by not just training me how to do great science but by teaching me how to be a scientist."

Justin Vigar (BSc '12, MSc '19)

Member of the uLethbridge iGEM team
Delegate to the United Nations Convention on Biodiversity (2018)
Current PhD student, Leslie Dan Faculty of Pharmacy,
University of Toronto

CALGARY CA

Accelerate your degree

With access to courses year-round on our Calgary Campus, you can stay on track with your program, or complete your degree sooner than expected. Regardless of which campus you call home.

CAMPUS

Evening and weekend classes

Keep your day job while you work towards a bigger paycheck, a promotion or even a whole new career.

Connecting the University of Lethbridge with Calgary's East Village and the downtown core, the Calgary Campus offers flexible programs developed with the working professional in mind. Our location and delivery methods are designed for maximum flexibility with your personal schedule.

If you are looking to upgrade your skill set and credentials to advance your career, our uLethbridge Calgary Campus is well-suited for the working adult. We know your life is complicated; you need a comprehensive learning experience to up-skill as quickly as possible and improve your job prospects. We offer face-to-face and blended instruction evening and weekends, with some courses offered exclusively online.

For a current list of programs available at our Calgary Campus, visit our website.

ulethbridge.ca/future-student/calgary

Admission Routes

Post-Diploma

If you have a business- or health-related college diploma, you can earn a bachelor's degree in as little as two years. If you have an academic diploma in a non-business field, you may be able to complete a Bachelor of Management (BMgt) in as few as 25 courses, or a Bachelor of Health Sciences (BHSc) in as few as 20 courses.

Transfer

If you've completed at least eight transferable courses, talk to us about transferring your credits toward a uLethbridge degree.

Second Degree

Already have a degree? You may be able to complete a BMgt degree in as few as 15 courses.

Open Studies

Current uLethbridge students and the general public can take courses on our Calgary Campus in a selection of subjects including fine arts, humanities, management, sciences, and social sciences.

Student Supports

Students at our Calgary Campus have access to services including academic advisors who can help you plan your program and provide advice on changing your major; enrolment advising to help you explore your interests and choose a major; study skills presentations; and learning supports such as exam accommodations and assistive technologies.

Our Calgary Campus delivery methods and supports are tailored to working adults. Students who are looking to apply directly from high school should consider opportunities at our Lethbridge Campus.

University of Lethbridge Calgary Campus

Suite S6032, 345 - 6th Avenue SE
Calgary, AB | T2G 4V1
403-571-3360
calgary.campus@uleth.ca

INNOVATIVE OFFERINGS

Early Start Experience

Through the Early Start Experience, students can take a liberal education course for credit before the start of the Fall 2021 term. It promotes success and eases the transition from high school to university, while giving you credit towards your degree. Get to know the Lethbridge Campus, meet fellow students and your professors, and familiarize yourself with the resources we offer. You'll also learn to articulate the value and impact of your experiences to future employers and highlight the range of skills developed during your degree.

New! BFA New Media/ BSc Computer Science

Learn to tackle difficult problems using a variety of high-tech tools and technical know-how. A solid grounding in liberal education means you will be able to translate your solutions for people of differing technical abilities. By the time you graduate, you'll have the creative, critical and technical skills necessary to manage emerging technologies in a wide range of workplaces.

SOME THINGS TO KNOW

Our **education program** is one of the leading programs in the country. You'll receive 27- weeks of off-campus practicum experience, teaching in multiple settings, such as elementary AND secondary schools (unique to uLethbridge). Your professors are teachers who have all taught in K-12 classrooms and balance theory with practice.

Our **digital audio arts** major, the most comprehensive degree program of its kind in Western Canada, combines academic courses and a classical music conservatory with experiences in audio engineering, music production and sonic arts.

The **addictions counselling** program is the only baccalaureate program of its kind in Canada.

The **Dhillon School of Business** has received Chartered Professional in Human Resources (CPHR) accreditation for the Bachelor of Management in Human Resources Management and Labour Relations program. The CPHR designation is the only designation recognized by nine provinces across Canada and is aligned with the United States' Society for Human Resource Management — the largest HR organization in the world.

Our innovative **Aboriginal health** program examines the factors that contribute to Indigenous health, strength and resilience in Canada. Students develop their skills

DEGREES, PROGRAMS & ADMISSION INFORMATION

We offer more than 150 programs at uLethbridge.

We think it is important that you explore your interests to find out what you are passionate about. Our liberal education requirements are structured so the courses you take in your first year will apply to any of our degrees, giving you the opportunity to find out what makes you shine.

The following are the general admission requirements for applicants presenting credentials from Canadian high schools. Your published (final) Grade 11 grades will be used to determine conditional admission to uLethbridge. Final Grade 12 grades will be reviewed and must meet admission requirements prior to the appropriate document deadlines. To ensure success in academic study, all applicants, regardless of citizenship or country of origin, must meet the English language proficiency (ELP) requirements through recognized study or a valid standardized test score.

ADDITIONAL ADMISSION ROUTES

Indigenous Student Success Cohort (ISSC)

The Indigenous Student Success Cohort (ISSC) is a first-year credit program providing Indigenous students who don't meet the general entrance requirements of uLethbridge an opportunity to find success at university.

The ISSC provides core skills in a supportive environment attending to Indigenous ways of knowing and learning. It is also open to Indigenous students returning to university after an absence and, as space allows, to those who qualify for general admission but want the supports provided by the group. Successful completion of the ISSC allows you to enter into most uLethbridge programs. This is a full-time university program that may qualify for loans and other sources of funding.

This eight-month (two-term), first-year experience program runs from September to April. It provides a strong foundation of courses that can be credited to the majority of programs at uLethbridge. The deadline to apply to the ISSC is August 31.

ulethbridge.ca/future-student/indigenous-student-success-cohort

Mature Student Admission

Mature student admission may be available to applicants who are 21-years of age or older and who do not meet our general admission standards. Life achievement may be considered if it has provided you with skills relevant to university success.

ulethbridge.ca/future-student/mature-student

International Students

uLethbridge is home to more than 800+ international students from over 100 countries.

For the most part, applicants who have completed secondary qualifications in other countries will be considered for admission under the high school admission route. However, visit our website for requirements specific to your country.

ulethbridge.ca/ross/admission-information/intl/intreq

Non-native English speakers need to pass an English-language proficiency test or take English for Academic Purposes (EAP) before they can enroll in classes. Learn more at: **ulethbridge.ca/ross/admissions/elr**

The application deadline for international students is May 15 and a study permit is required.

We are here to help you adapt to campus life socially, academically and culturally.

ulethbridge.ca/future-student/international-requirements

Dual Admission

Dual admission agreements with the College of the Rockies and Medicine Hat College mean students can easily transfer to uLethbridge. Students are admitted to uLethbridge while still attending college, and benefit from continuing student registration privileges, certainty regarding program requirements, transferability of courses and access to uLethbridge student services.

ulethbridge.ca/ross/admissions/undergrad/dual-admission

NEW! Career Bridge: Centre for Work- Integrated Learning & Career Development

Career Bridge brings together co-operative education, applied studies, career coaching and planning, and the MyExperience Transcript. The team facilitates work-integrated learning and career development opportunities so all students benefit from exceptional academic and professional experiences.

YOUR FUTURE IS IN YOUR HANDS!

Academic Advising

Assists with course selection, program planning and program changes as well as registration for courses not offered via online registration. Each Faculty has its own academic advisors. Future and first-year students can arrange enrolment advising appointments through Enrolment Services.

Accommodated Learning Centre

Provides individual learning plans, exam accommodations, assistive technologies, alternate format textbooks and funding assistance as well as personalized supports.

Counselling Services

Offers brief individual counselling at no cost. Counselling is confidential and can help students with a variety of personal issues like adjusting to university life, anxiety, relationships and more. Other services include group counselling, wellness workshops and certifications.

Indigenous Mentors Program

Funded through a generous donation from Scotiabank, we offer two types of mentoring: youth and alumni. One pairs a current uLethbridge Indigenous student with an Indigenous youth from the local community where participants spend time engaging in social activities. The other pairs a current uLethbridge Indigenous student with an Indigenous alum who offers guidance and support.

likaisskini Indigenous Gathering Place

Students who self-identify as First Nations, Métis or Inuit at uLethbridge receive guidance, encouragement and support in the transition to university life and beyond.

Health Centre

Provides convenient access to quality health care on campus. Whether you are from the Lethbridge area or are moving to attend uLethbridge, you won't need to worry about finding a doctor while on campus. The Health Centre provides a wide range of services including illness or injury treatment and health exams as well as mental health supports. Our diverse team includes physicians, psychiatrists, nurses, behaviourists, dietitian and administrative staff.

International Centre

All uLethbridge students can participate in international experiences and opportunities including study abroad and exchanges, summer study tours and international internships. International students receive support in all aspects of campus life as uLethbridge students and visitors to our country.

Registrar's Office

This is the centre of your academic journey on campus. The Registrar's Office serves students in a number ways including: admissions, course registration, timetabling, student records, academic calendar, program planning guides, transcripts and more.

Scholarships and Student Finance

Whether it's through awards, bursaries, funding consultations, advice on budgeting, scholarships or student loans, our office is open to support the financial side of your education.

Student Mentors

Student mentors are uLethbridge students who provide guidance and support to new students as they transition to university life. Every new student is assigned a mentor who communicates via Mentor Mail and personal emails.

Tutoring and Learning Strategies

Whether you need a little help with a particular course or just want some tips and tricks to make studying more efficient, we provide peer-run group tutoring and learning strategies to help you make the grade.

Writing Centre

Provides practical writing support that supplements in-class instruction and helps you understand a wide variety of writing assignments. This is a free service for uLethbridge students.

Visit our website for a comprehensive list of our student support services.

ulethbridge.ca/student-support-services

#ULETH

Things to know:

School Motto:

Fiat Lux, Latin, meaning Let There Be Light

School Colours:

blue and gold

uLethbridge's Blackfoot name:

Iniskim, meaning Sacred Buffalo Stone

Mascot:

Luxie the Pronghorn, the fastest land mammal in the Western Hemisphere

School Tradition:

stroke the pronghorn statue outside the University Library for good luck before exams

Established:

1967

SHINE:

It's a glowing passion for work and for play. It's the spark of creativity and discovery, and the burning desire to do. It's constantly raising the bar.

It's what we do, each and every day.

Strong, swift and enduring — the spirit of the pronghorn is legendary. It's a spirit that lives within us all.

Whether competing on the court, in the boardroom, on the ice or in the laboratory, uLethbridge students proudly wear our blue and gold.

Pronghorn Varsity Teams

Basketball (men's and women's teams)

Rugby (women's team)

Soccer (men's and women's teams)

Swimming (combined team)

Track and field (combined team)

Competitive Clubs

Golf (men's and women's teams)

Ringette (women's team)

Curling (men's and women's teams)

Field Lacrosse (men's team)

Coaches recruit the majority of Pronghorn student athletes prior to the start of the season. However, each varsity team will hold an open try-out in the weeks leading up to their season. Visit gohorns.ca to see the schedule and to get in contact with a Pronghorn coach.

The Herd

Show your Pronghorn pride. Join the Herd, a student-led spirit squad that passionately supports our teams throughout the year. Meet new people, gain free admission to every Pronghorns game and cheer on our teams. Go Horns!

GET YOUR SOCIAL LIFE ON TRACK

With student club events, fine arts productions, cultural celebrations, athletic activities and just hanging out with friends, campus is bustling all year long.

Stay fit, have fun!

We have many opportunities for students to take part in recreational activities like curling, fencing, karate, fitness classes and wellness programs. There are also several intramural programs to choose from, including favourites like dodge ball, floor hockey and Ultimate Frisbee.

Prairie Baseball Academy

With a partnership that's nearly 30-years strong, we are proud to be associated with one of the best baseball academies in Canada. The PBA attracts players from across Canada. Learn more about the PBA at prairiebaseball.ca

University of Lethbridge Students' Union (ULSU)

The uLethbridge Students' Union is your voice at the University and at all levels of government. It also provides student health and dental plans in addition to organizing some of the best events of the year — cabarets and karaoke at the Zoo (our campus pub), Fresh Fest and various awareness weeks to name a few! Any student can run for an executive or representative position. Learn more at ulsu.ca

Student clubs

Whether dance, business, model UN, Greek life (fraternities and sororities) or other interests, student clubs are the best way to get involved and have fun outside of class hours. There are nearly 100 student clubs on campus that provide social and athletic activities, travel, religious fellowship, and charitable and cultural support. If the club you want doesn't exist, it's easy to start one! clubs.ulsu.ca

Lethbridge is a city best known for its bright sunshine and warm, windy days. Here, where the Rocky Mountains meet the prairies, you'll find a close-knit but welcoming community where ideas flourish.

But we're also a growing community of more than 100,000 people with a vibrant arts and culture scene, world-class sports and recreation facilities, and spectacular scenery. Indoors or outdoors, on campus and off, you'll find plenty of things to do in Lethbridge.

Walk or run the coulee trails into the Oldman River valley under the shadow of the iconic High Level Bridge. Visit downtown for one of the many festivals that take place in Galt Gardens, hit an art opening at the Southern Alberta Art Gallery, check out a band, or grab a coffee with friends. Take in a blockbuster movie or an arthouse film. Cheer on the Pronghorns, the Hurricanes or

the Bulls, or join one of the many recreational sports leagues in town, like the Lethbridge Curling Club at the new ATB Centre.

Here, where the Rocky Mountains meet the prairies, you'll find a close-knit but welcoming community where ideas flourish under the big Alberta sky.

"Going to all the little coffee shops around town! There's always a good cup of coffee and a sweet treat waiting after a hard study session. My boyfriend and I try to go to Sonder every weekend and try a different kind of waffle each time; I recommend the bananas and whip!"

Kiera Nelson, English and Education major

"Ordering too much to eat at KOKO (restaurant), getting Turtle Corn Soup flavour chips and delicious boba from Umami, and hunting for used books at Echo and Big John's Books."

Simone Bowes, New Media major

"I like to go to the Movie Mill or catch the library and university's screenings of films when I can. I also go to live music/performances like the Lethbridge Symphony, shows at the Yates, or smaller ones at Club DiDi or The Owl."

Aaron Richardson, Digital Audio Arts major

RCITY

STUDENT HOUSING HOME SWEET HOME

Welcome to your home away from home. We believe residence is about more than accommodation: it's about building community, sharing experiences and having fun — essential in helping to ensure a smooth transition to university.

Living in residence is a great option, especially during your first year*. Studies show that students who live on campus are more likely to have a successful academic experience. Why? In a word, access.

As a resident, your home is steps away from social, exercise and recreational spaces, classes, professors' offices, student services, study spaces, and academic programming.

You have a built-in community that enhances academic performance and social success. You'll make lifelong friends, find study partners and fine-tune your interpersonal skills.

Residents belong to the largest student club on campus, the Organization of Residence Students (ORS). Each section in residence has residence assistants (RAs) who build community by coordinating fun social events (think Residence Wars), educational opportunities and everyday interactions like section dinners and hanging out in the common room. They also uphold the community standards, can assist with roommate disagreements and will connect you with the many services the University has to offer.

Our RAs are trained in emergency response, mental health first aid, and standard first aid, not because you'll need it, but because we like to be prepared.

Campus Safety

We take security very seriously. We have a new app called uLethbridge Safe. It enhances your safety and security and gives you quick access to numerous uLethbridge services through your smart phone or mobile device.

Our residences have Closed-Circuit Television in public areas; residence is regularly patrolled by Security Services; we offer Safe Walk (where a safety team member accompanies you to and from anywhere on campus) and personalized electronic key fobs, so only you have access to your room. Our Working Alone Web System (allows you to log in and make Security Services aware of your location when working alone on campus); and a key-tag service in case you lose your keys on- or off-campus.

What's in a name?

To honour our relationships with local First Nation communities, the early student housing developments at uLethbridge are named after some of the signatories of Treaty 7, signed September 22, 1877. The communities are Kainai, Piikani, Siksika and Tsuu T'ina.

**While all students are welcome to apply, priority for on-campus housing is given to non-local students.*

ulethbridge.ca/future-student/housing

MONEY MATTERS

Apply for On-Campus Housing

Apply early since residence is not guaranteed and is in high demand. Applications open September 15, 2019. You can apply for residence after you have applied to uLethbridge and received your student identification number. To apply, visit ulethbridge.ca/housing

All our residence accommodations are fully furnished, so expect to find a bed (with storage space beneath), a desk and a place to hang your clothes. Wireless internet and all utilities are included. Residence facilities also include study rooms and social spaces.

You are considered a New University student if you:

- enter straight from high school, or
- take less than one year off following high school

Apply online to stay in the traditional-style dorms in University Hall (UHall), or one-, two-, four, or six-bedroom apartments in Aperture Park.

You are considered a Transfer or Mature student if you:

- enter after studying at another post-secondary institution, or
- take two or more years off following high school

You can apply online to live in a studio or four-bedroom apartments in Mount Blakiston House or the two- or four-bedroom townhomes in Siksika House and Tsuu T'ina House.

Approved 2020/21 fees (per term):

New University student

- Traditional: \$1,732– \$3,012
- Apartment: \$3,380 – \$4,888

Transfer and Mature student

- Apartment/townhome (furnished): \$2,908– \$4,952

ulethbridge.ca/housing/room-rates

Dining Plans

We understand that this is a transition year and may be the first time you are living away from home. With a dining plan, your transition to university is likely to be smoother as you have access to nutritious meals with minimal effort.

Plus, you won't have to worry about grocery shopping, cooking every meal or doing dishes!

New University students living in residence are required to purchase a minimum Commuter dining plan.

Approved 2020/21 dining plans (per academic year):

- Sampler: \$1,890
- Commuter: \$3,800 (New University student option)
- Standard: \$4,410 (New University student option)

Big eater? Consider one of the larger options and know you can add money at any point throughout the year. Like to cook? Consider one of the smaller options as there are shared kitchen spaces in the dorms and full kitchens in the apartments where you can prepare some food yourself.

Not a first-year student? Even though all of our apartments and townhomes include a full kitchen, if you're not interested in doing the shopping, cooking and dishes, purchase a dining plan!

UPass

UPass gives undergraduate students enrolled at uLethbridge unlimited access to local transit during each term they are registered for classes. It is an environmentally friendly, cost-effective and safe way to navigate Lethbridge.

Resident Parking

Resident parking permits are in very high demand and sell out quickly. The Online Check-In System is the best way to obtain a resident parking permit. These permits are allocated on a first-come, first-served basis prior to the fall term. If you require a parking pass, plan to purchase online via the Online Check-In System. Once the system is closed, you should plan to purchase a pass via Campus Mobility Services as they are available. Students have the option of purchasing yearly and eight-month permits, with eight-month permits being the most popular. There is short-term parking in various lots on campus at pay-and-park dispensers.

Students living in residence who have a vehicle must purchase a resident parking pass.

Off-Campus Housing Registry

One of the benefits of living in a city divided by a river is that the entire west side, where uLethbridge is located, features extensive off-campus housing close to campus. Since the majority of our students live on the west side, it's practically an extension of residence. The University of Lethbridge provides a list of off-campus housing to assist students in finding accommodations. Visit our website for more information about rental listings available around Lethbridge.

ulethbridge.ca/housing

Educational Costs

These amounts are based on a typical course load for one year — five classes per semester or 10 courses over the academic year.

	Canadian Students	International Students
Tuition	\$5,322.20 (2020/21) ¹	\$18,403.40 (2020/21) ¹
Student Fees	\$498.39 ¹	\$498.39 ¹
Health and Dental	\$312.62 ²	\$312.62 ²
UPass	\$164 ³	\$164 ³
Books and Supplies	\$1,250 (\$125 per course)	\$1,250 (\$125 per course)
Total	\$7,547.21	\$20,628.41

¹ Costs are subject to change. ² Refundable with proof of health insurance; otherwise fee is mandatory. ³ Fee is mandatory unless you meet one of the conditions of opting out. UPass total is for both fall and spring terms.

Loans and Grants

Funding for Canadian students is also available in the form of student loans and grants. Both the federal and provincial governments offer financial aid to students who qualify. Your government loan remains interest-free as long as you remain a full-time student.

Banks and other private financial institutions also lend money to help students fund their education. Contact our Scholarships & Student Finance staff at fin.aid@uleth.ca for more info, or contact your bank for information on private student loans.

Apply for Scholarships

Ensure you apply for as many scholarships as possible! uLethbridge has hundreds of awards, scholarships and bursaries available with many different criteria. Don't count yourself out! Visit page 33 for more information.

"Scholarships and research funding have enabled me to focus on my academics and participate in hands-on research investigating prairie plants for their medical qualities. This support has truly encouraged me to move forward and reach my goal of becoming a family physician."

Haley Shade

Bachelor of Science Student
Major: Biological Sciences

SCHOLARSHIPS

Hundreds of scholarships, awards and bursaries are handed out to new and continuing students every year.

Last year, **50% of new high school grads received a financial award averaging \$1,500.**

Grade 11 Year

June 30: Grade 11 Merit Award

Five Grade 11 courses are used to determine the award average and will follow the same formula as general admission (English 20-1, three academics and a fifth distinct course)

**Online award application must be submitted in your Grade 11 year.*

Grade 12 Year

December 15: Board of Governors' Admission Scholarship

Board of Governors' scholarship rewards applicants new to post-secondary (attending directly from high school or who have not attended any other post-secondary institutions before applying to uLethbridge) who apply early. This scholarship can be combined with uLethbridge High School Awards and the Grade 11 Merit Award. Remember to apply early to maximize the value of your scholarships.

March 15: High School Awards

Up to \$6,000 awarded to qualifying students

**Online awards application required.*

Post-Secondary Transfer Awards

June 15: Transfer Awards

Up to \$1,500 awarded to qualifying new transfer students (includes post-diploma applicants) based on various criteria. **Online award application required.*

- yconic.com

Awards for Indigenous Students*

Value: \$250 - \$5,000

More than 20 awards are available specifically for Indigenous students. These are granted primarily on academic achievement although other criteria may also be considered. Eligibility may vary based on the program, year of study or Indigenous heritage. **Online award application required.*

ulethbridge.ca/ross/student-finance/fnmi-awards

Calgary Campus Access Award

Value: \$1,000

This award is available to the first 100 students offered admission for Fall 2021 at our Calgary Campus. Minimum admission average and enrolment in part- or full-time studies is required.

**All awards applications must be completed/submitted through the Bridge. Use your student log in at bridge.uleth.ca*

Where you learn shapes how you learn. Whatever your program, our world-class facilities will inspire you.

OUR FACILITIES

The Science Commons, the newest facility at uLethbridge, adds state-of-the-art learning and research spaces to campus. It is Canada's most advanced facility for science research and education.

The **Alberta Water and Environmental Science Building** puts researchers and their students at the centre of southern Alberta's living and learning laboratory where they study critical water and environmental issues like climate change.

The **Centre for Financial Market Research and Teaching** is a 48-station facility on both Lethbridge and Calgary campuses and the best-equipped academic trading room in western Canada. With direct connections to global financial markets, it gives students experience in derivatives and equities trading and commodity-risk management.

At the **University Centre for the Arts** you can enjoy interesting shows, art exhibitions, theatre productions and musical performances all year long.

The **Simulation Health Centre** provides nursing students with exceptional hands-on learning experiences. The lifelike mannequins simulate birth, have heart attacks and even respond to medication, enabling students to practise their skills and critical decision-making in a safe and interactive way.

Studio One (a world-class recording studio), new **Pro Tools Editing Suite, Digital Cinema Suites** (professional editing and finishing rooms), individual art studios for senior students, and **University Recital Hall** (acoustically-tuned performance space) are just a few of the extraordinary fine arts learning spaces.

The **University of Lethbridge Art Gallery (ULAG)** houses one of the most significant art collections in Canada, made up of more than 16,000 works. Through exhibitions, events, public programs, internships in the Hess Collection, satellite and online galleries, the ULAG collection is an important teaching and research tool.

The **University Library** houses approximately one million holdings. In addition to providing you with resources to help with your projects, assignments and research, the library boasts some of the best study spaces on campus: a nearby Starbucks and a spectacular view.

With a climbing wall, fitness centre, triple gymnasium and an indoor 200-metre track, the **1st Choice Savings Centre for Sport and Wellness** is your place to stay fit and have fun!

SCIENCE COMMONS

1 COULEE TRAIL

SEVEN STEPS TO APP

1

Pick a program

We have 150+ programs to choose from. Learn more at ulethbridge.ca/future-student/programs

2

Review admission requirements

Find out if you have the requirements for your program of choice. Visit ulethbridge.ca/future-student/admission-reqs

3

Check for additional program requirements

Some programs have requirements in addition to our general admission requirements. Learn more at ulethbridge.ca/ross/admissions/undergrad/additional-admission-requirements

4

Apply online

It's easy! The cost to apply is \$140. Visit ulethbridge.ca/future-student/application to submit your online application.

Note: All completed applications submitted before December 15 will be considered for the Board of Governors' Admission Scholarship, worth up to \$1,000.

5

Apply for residence!

Our residences are in high demand, so if you're interested, apply online asap! ulethbridge.ca/future-student/housing

Want to live off-campus? Check out our off-campus housing website: ulethbridge.ca/offcampushousing

LY

Apply for awards

We have several scholarships and awards with deadlines ranging from December 15 to June 30. ulethbridge.ca/future-student/awards

Send us your grades

If you went to school in Alberta, we will get them automatically.

Questions? Contact inquiries@uleth.ca

We are a community of inspiring lights who shine brighter together.

We can't wait to meet you, show you around campus and introduce you to our students, faculty and staff.

Let us know when you would like to visit. We will help you create a schedule for your visit and contact you with the details.

Take a campus tour

One of our tour guides will show you around campus, highlighting uLethbridge's many features and facilities.

Be a student-for-a-day

We will pair you with a student volunteer in the program you're interested in. You'll attend classes, labs and even go for lunch, our treat. Student-for-a-day is currently available on the Lethbridge Campus only.

Book your tour or student-for-a-day online: ulethbridge.ca/future-student/request

Book an enrolment advising appointment

Have all your questions about admission, programs and more answered in a one-on-one session in-person, over the phone, in your community or online.

Email inquiries@uleth.ca to set up a meeting. You may also want to combine a meeting with a campus tour. We would be happy to coordinate this for you — just let us know!
